

SCHEDULE B: SERVICE DEFINITION FOR RISK ASSESSMENT SERVICE**1. Risk Assessment Service Description**

Exponential-e's Risk Assessment Service provides the Partner with a security risk assessment covering the End User's security controls; this will include reviewing technical and document controls and speaking with End User employees to understand their security risk knowledge. The risk assessment will include a visit to the End User Site. The number of days over which the Risk Assessment Service will be provided will be set out on the Order Form, as well as the number of on-site days. Within two (2) weeks of the completion of the assessment, the End User will be provided with a report detailing the strength of the End User's current security controls; giving a view of the perceived cyber security risks, suggestions for remediation and the priority order in which they are recommended to be addressed. The Partner acknowledges that due to the sensitive nature of the engagement, security information regarding the End User won't be shared with the Partner.

2. Target Service Commencement Dates

No Target Service Commencement Date applies. The Parties shall agree in writing, following Order acceptance, a mutually-agreeable date for the Risk Assessment Service to commence and if different, the date(s) for the on-site visit to be held; which shall in any event occur within three (3) months of the date of Order acceptance.
